

# Girls Golf and FORE!

*~Inspiring Girls to be Heard*

Girls today are flooded with unhealthy images of what she should look like, act like and be like when she grows up. Expectations become distorted and girls are often steered to trust phony realities created by the media and cultural progression. Girls Golf and FORE! addresses these issues by linking teenage girls together with role models and mentors that share the common interest of golf to broaden their horizons far beyond the golf course.

Every girl is limitless and free to dream in a society that may suggest otherwise. We want our girls' abilities to shine and to stand out, simply put; we want our girls to be *heard*.

Registration for this exciting group is FREE and available on-line or by contacting Katie Brenny. There will be 10-12 activities in and around NYC in 2012.
