

Unit 2 Vocabulary: "Movie Special Effects"

1. Electrolysis
2. Compound
3. Chemical formula
4. Normal melting point
5. Normal freezing point
6. Normal boiling point
7. Potential energy
8. Vaporization
9. Sublimation
10. Pure substance
11. Solution
12. Solute
13. Colloid
14. Tyndall effect
15. Suspension
16. Emulsion
17. Composite
18. Texture
19. Uniformity
20. Strength
21. Elasticity
22. Bounce
23. Malleability
24. Density
25. Metal
26. Nonmetal
27. Luster
28. Conductivity
29. Ductility
30. Reactivity
31. Oxidation
32. Metalloid
33. Alloy
34. Polymer
35. Viscosity
36. Polymerization
37. Electron
38. Flame test
39. Nucleus
40. Hydrocarbon
41. Combustion
42. Law of conservation of mass
